

2019
Plant Biology

XXIII Meeting of the Spanish
Society of Plant Physiology

XVI Spanish Portuguese
Congress of Plant Physiology

Pamplona
June 26-28, 2019

Dr Jose M^a Garcia-Mina studied Chemistry in the University of Zaragoza (1981). He has been director of Research and Development in Timac Agro Spain, a company belonging to the Roullier Group; a multinational company dedicated to the manufacture of different types of fertilizers, biostimulants and nutrient correctors for improving crop production and quality (1987-2014). Likewise he has been deputy director of R&D of Agriculture division of Roullier Group (2008-2014). In this moment he is full professor of Agricultural and Biological Chemistry in the University of Navarra. Dr Garcia-Mina has focused his research in the chemistry, biological activity, and application of natural organic matter (NOM), and more specifically in a fraction of named humic substances. In this moment is the Vice-President of the International Humic Substances Society (IHSS). He has published 136 JCR articles, 46 book chapters and has applied 47 patents (web-Knowledge h index 26; cites 2166).
